

CEMENT MAN CLUB SPEAKER

O. C. Hart, Superintendent
Brigham Plant, Talks
to Ogden Engineers

O. C. Hart, superintendent of the Brigham plant of the Ogden-Portland Cement company, was the principal speaker at the weekly luncheon of the Ogden chapter of the American Association of Engineers, held at the Weber club today. Mr. Hart delivered a general talk on the manufacture of cement and emphasized the wet process which is featured at the Brigham plant.

He stated that the Brigham plant has one of the most unusual cement deposits of any plant in the world. In his address Mr. Hart stated that wet and dry processes are in use in various parts of the country but that better results are obtained through the wet process. He also informed the members of the Ogden chapter that the plants in Utah are the only ones between Denver and the coast.

C. H. Sweetser of San Francisco, district engineer of the U. S. bureau of public roads, also delivered a short address. He spoke on road problems.

JUDGE DECIDES FOR STEPHENS

S. C. Stephens, Jr., of Ogden was today awarded judgment by Judge George S. Barker in the district court for \$12,040 against Mrs. Luella Doxey, after Judge Barker had taken the case under advisement following the trial which was completed two weeks ago.

Mr. Stephens sued Mrs. Doxey for \$13,000 equity in an apartment house on Twenty-seventh street, and the court awarded this amount less \$960 for fixtures which were claimed faulty when the apartment was erected. In addition to paying the amount of judgment Mrs. Doxey is further ordered to pay attorney fees, taxes on the property and interest on the amount of judgment since 1915.

Hearing of the case consumed more than three weeks in court and as a result of heated argument which arose while those interested in the case were making an inspection in the basement of the apartment house, George Halverson, attorney for Mrs. Doxey, claimed to have been attacked and beaten by the Stephens.

The altercation resulted in Mr. Halverson carrying bruises on his face and head for several days.

UTAH COAL MINES INTEND TO REDUCE WAGES, SAYS PRICKETT

WASHINGTON, Jan. 20.—Possibility of a national coal strike April 1, when the present agreements between the miners and operators expire, was touched upon today at the interstate commerce commission's general rate inquiry. H. W. Prickett, representing operators in southern Wyoming, Utah and nearby districts, declared the operators planned to put in substantial wage reductions April 1. Shortly afterwards W. S. Brownson, attorney for the Chesapeake & Ohio railroad, asked J. D. A. Morrow, vice president of the National Coal association, what the possibilities were for a coal strike and Mr. Morrow in reply asserted that he "made it his business not to know anything about the labor side of the coal industry," in view of the fact that it was handled by other organizations of mine owners than his own. The wage decreases, however, Mr. Morrow said, were generally expected. The strike matter was brought up during continuation of testimony and regulation of rates on coal. Mr. Prickett told the commission that a reduction of 20 per cent in present rates was justifiable and ought to be

put into effect. Much a decrease in rates, he asserted, would result in increased consumption of coal and consequent benefit to the railroads.

Police Continue Hunt For Bag of Registered Mail

ELKHART, Ind., Jan. 20.—Search for the bag of registered mail which the police say George E. Scruggs, white and Dan Ingram, negro, have confessed to stealing on Wednesday, continued today. Unofficial estimates of the value of the bag's contents have been placed as high as \$50,000. George F. Ulich of Fremont, Ohio, who is in charge of the case, said he was proceeding under the assumption that Scruggs is withholding material facts. Scruggs was said to have told the

police that there was no cash in the bag and that he threw it into the river.
